## COMPANY HISTORY & OBJECTIVES

VALIANT INDIA a trusted supplier with a strong market network and a highly motivated team of qualified engineers for tooling solutions, storage solutions and equipment. Our goal is to efficiently supply cutting edge technology solutions from world's leading manufacturers. We create a win-win situation for all our clients by offering top-notch sales and technical solutions.

With a small yet efficient infrastructure, ensuring smooth operations and efficient client service.

We prioritize maintaining well-maintained logistic facilities to ensure timely delivery and seamless operations. At Valiant India, our approach is "outside-in," focusing on understanding our clients' needs and preferences.

## ABOUT US

Established in 2007, Valiant India is a trusted trade house based in Pune, Maharashtra, India. We proudly represent renowned brands and specialize in cutting-edge solutions. Over the past 1.5 Decades Valiant has not only gained the trust of the clients with more than 500+ happy customers PAN India but also suppliers over the world with their supply in India.

Our focus areas include index able carbide cutting tools, tool holding systems, solid carbide tools, material clamping systems, and industrial storage systems.

### WE ARE OFFICIAL PARTNERS FOR

- DIJET Industrial Co. Ltd. - Japan
- MST - Corporation – Japan
- JJ TOOLS– South Korea
- FCS SYSTEMS - Italy
- SUPPLYPOINT Systems –UK
- ANN WAY Machine Tools co.,LTD. - Taiwan
- METAFOLD Engineering PVT LTD. - India

With a strong commitment to excellence, our objectives have always been to provide top-quality services and products, achieve customer satisfaction, establish a prominent market presence, attract the best industry talent, and work as trusted business partners with our principles.

At Valiant India, we put our customers at the forefront. We strive to deliver exceptional value and ensure utmost satisfaction. Our experienced team of professionals understands your unique needs and offers tailored solutions that go beyond expectations.

# OUR SOLUTION PARTNERS

## DIJET Industrial Co. Ltd. - Japan

(Indexable Carbide Cutting Tools, specialised in Die and Mold machining, General Millings and innovative Toolings)

DIJET introduced cemented carbide to industries in 1938 with headquarters in Japan and has been dedicated to innovating carbide tools and machining technology since then.

We always develop our own materials which can be matched with market demands and also developed new products with originality and supply high efficient tools to the market. We guarantee high quality, reliability with consistent manufacturing process from material to finish products at plant only. We have been supplying in 5 continents, 46 countries so far.

## MST Corporation - Japan

(Shrink Fit systems, Angle heads, Tool Holding Systems)

Japan's machine-tool industry is one of the best in the world. For 27 years, since 1982, it has been No.1 in market share, and it should maintain this position into the future.

We are the first Tool-Holder manufacturer in Japan, having been founded in 1937.

Our original, unique products have earned a reputation as having "the best technology and quality in the industry", and our products are greatly appreciated by customers worldwide.

One of our niche product slimline, is a shrink-fit system that securely holds carbide cutting tools with precision. It utilizes MST's unique material, allowing shrink fitting at temperatures of 300°C or lower. The system employs an industrial dryer-based, hot-air, shrink-fit heater.

## JJ TOOLS- South Korea

(Solid Carbide Rotating Tools having more than 15000 varieties, Your special is our standard)

JJ Tools is a leading provider in the cemented carbide cutting tool industry, with over 20 years of experience since its foundation in 1997.

The company is committed to delivering exceptional quality products, ensuring that only the highest quality standards are met.

JJ Tools has achieved significant quality improvements in its standard product line by implementing stringent tolerance controls and utilizing world-class manufacturing equipment operated by highly qualified personnel.

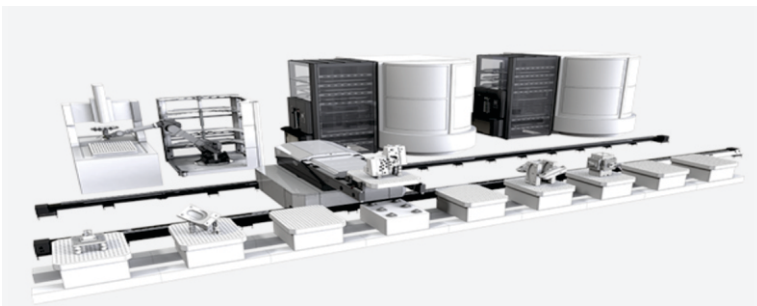

## FCS SYSTEMS - Italy

(Beryl Clamping Systems, Grip Vises, Zero Point, Pallet Changer etc.)

Founded in 2003 by the Spin-off of the R&D division of ELMANN mould industry, FCS System has as Mission the study and distribution of integrated systems for the improvement of production efficiency and the resulting process optimization.

We have a vast customer base, with over 1,200 users worldwide, and our systems are installed on more than 12,000 machines.

15 worldwide patents attest the company efforts to research innovative solutions in the field of the industrial processes and in their automation.

## SUPPLY POINT Systems-UK (Tool Inventory Management System)

Supply Point was established in 1998 to design, develop and manufacture innovative point-of-use inventory management systems. Through continuous investment, development and focused expansion, Supply Point together with our network of skilled and dedicated distributors, have become firmly established as the world leaders in automated point-of-use inventory solutions.

Our custom design skills, coupled with a unique knowledge of real-life inventory management requirements enable us to produce products which consistently deliver diverse, tangible benefits to organisations of any size.

Our customer focused consultation, implementation, training and support services ensure our users obtain the maximum benefit available from the implementation of automated inventory management.

## ANN WAY Machine Tools co.,LTD. - Taiwan (Tool holders machine Tool accessories)

Established in 1979, ANN WAY Machine Tools Co., Ltd. is a manufacturer of cutting tools and cutting tool holders for both conventional and CNC machine tools.

The company offers a diverse range of products, including boring and milling cutting tools, ER collet chucks, milling chucks, keyless drill chucks, and more. They also provide testing tools compatible with BT, HSK, DIN, and ANSI standards.

ANN WAY products are distributed globally, including in countries such as the USA, Canada, the UK, Germany, France, Switzerland, Italy, Australia, Turkey, and Southeast Asia.

## METAFOLD Engineering PVT LTD. - India (Industrial Storage System)

Metafold is established in 1991 with the core capabilities of facilitations the work flow via maximizing utilization of space in shop floors and workplaces.

Serving our clients from last 27 yrs., have a manufacturing setup spread over 65,000 sq.ft. Also have In-house 3D Modelling and Design analysis facility.

The assortment of products finds versatile applications in diverse industries such as aerospace, pharmaceuticals, logistics, military enterprises, electronics, food, petrochemical, railway, auto, machinery, supermarket storage, and textile and so on.
